Recommendation to Purchase Thermal Printer

After comparing available models from various stores, we recommend purchasing the **SAGE ZJ200/ZJ9200** from **rainbowtreasure.**

Justification:

For a large-scale event like 73rd National Convention, a printer's speed and reliability are paramount to ensure a smooth and efficient registration process.

- **Fastest Print Speed**: The SAGE ZJ200 / ZJ9200 stands out with a print speed of **160 mm/s**, making it the fastest option on your list. This superior speed will significantly reduce wait times and prevent bottlenecks at the registration booths.
- **Universal Compatibility**: It is compatible with **Android, iOS, Windows, and Mac** devices. This versatility is crucial for an event, as it allows for seamless integration with different types of computers and mobile devices used by the event staff.
- **Excellent Value for Money**: Priced at **₱3,273.00**, the SAGE ZJ200 / ZJ9200 offers the best balance of high performance and reasonable cost. The increased efficiency it provides justifies the slightly higher price compared to slower models.

Final Recommendation:

Purchase 5 pieces of the **SAGE ZJ200 / ZJ9200** from **rainbowtreasure** at **₱3,273.00 each** — the best value-for-money option based on its superior speed, broad compatibility, and competitive price.

Recommendation to Purchase Barcode Scanner

After evaluating the available models and considering real-world performance, we recommend purchasing the **Eyoyo 3 in 1 Barcode Scanner**.

Justification:

For a large event with a high volume of attendees, the key factors for a barcode scanner are durability, reliable connectivity, and efficient performance. Based on our testing, the **Eyoyo 3 in 1** excels in these areas, making it the most suitable and reliable choice.

- **Proven Durability**: Our own tests over one year have shown that the Eyoyo 3 in 1 is highly durable with no damage, which is a critical feature for a chaotic event environment.
- **Versatile Connectivity**: The scanner's ability to connect via Bluetooth, 2.4G, and a wired connection offers maximum flexibility for various event setups and ensures a stable connection under all circumstances.
- **Comprehensive Scanning**: As a 2D/1D scanner, it is fully capable of reading both traditional barcodes and the modern QR codes commonly used on event tickets, ensuring seamless check-in.

Final Recommendation

Purchase 5 pieces of the **Eyoyo 3 in 1** at **₱1,386.00 each** — the best option based on its proven durability, versatile connectivity, and competitive price.
